

COP 26 Litter Pick with Sustainable Kintore

Are you ever dismayed or shocked by the amount of litter lying in our streets, pavements, parks or green areas? For example, the slip roads leading into and out of Kintore are such an eyesore at times!

We want to make a difference in our community by cleaning up litter and improving the environment.

A small group have been doing litter picks throughout this year, and we think it's a good idea to have a focussed Community Pick from 1st – 12th November 2021 to coincide with COP 26, a huge meeting of heads of government across the World – this time being held in Glasgow.

We hope lots of willing volunteers from our community will join us to help make a difference in our town. You can work in family groups, with some friends or as part of an organisation. People of any age can help. The more involved the greater impact we can make. We hope people from all residential areas will be willing to clear up in their own area to show pride in the place we all call home. Those who work here can do the same in and around their workplace.

If you can spare one hour collecting litter once or twice over those 12 days in November, that would make a great difference.

Handy hints:

- If you take 2 bags with you, you can separate recyclable items as you go, saving a sort out at the end.
- Pick up broken glass only if you are wearing gardening gloves. Then put it in your glass recycling box.

If you would like to help, please contact: Rusty 07787 386143 or Sheila 07980 853456. You can also phone us to report a problem area you can't tackle yourself, but others could.
